

6. ROUTE 460 CORRIDOR IMPROVEMENTS PROJECT

I've invited Mr. Tony Kinn and Ms. Margie Ray, representatives of the Virginia Office of Transportation Public-Private Partnerships, to provide you an update on the Route 460 PPTA process.

They met with Supervisor West and representatives of our staff in early August to discuss the procurement overview and schedule, among other things. They had also met with representatives of the Town of Ivor on the day before.

They are seeking to improve communication with project stakeholders and welcome the opportunity to discuss the current status of the project and field your questions.
