

2. HIGHWAY MATTERS

A. HIGHWAY CONCERNS

This is a quick summary of where we are with last month's concerns:

1. **Drewryville** – sufficient right-of-way exists to install a turn lane at Green Plains Road – they are now seeking to identify a source of funding;
2. **Capron** – the request for a sign on Southampton Parkway (westbound) for Bryants Church Road is still under review at the District Office;
3. **Newsoms** – final seeding on Sunbeam and Riverdale Road will be completed as soon as the weather breaks;
4. **Franklin** – CSX still has not cleaned the culvert beneath its tracks between Rose Valley Road and Rt. 58 – VDOT is calling them weekly. Beavers have been successfully trapped near Delaware Road and VDOT is working to destroy the dams they've built – once complete, it is expected to resolve the issue of ponding water on the roadway there.

Please come prepared to share any new concerns you would like for me to communicate with the VDOT staff.

I sent Ben out to look at the site Mr. Faison had, yesterday. I will check on all of the items we had from previous month and let you know today.

Thanks, Jerry. Didn't have any new items from the Board last month – can you give me on update on the items pending from previous months? And did you receive my email yesterday regarding Supervisor Faison's concern on No. 8 Schoolhouse Rd.?

Subject: PowerPoint Six Year Plan

Mike:

I have attached the Powerpoint presentation for the public hearing. I was not sure about the ad dates for 688, 671, so I did not put the month of advertisement. Also I updated the cost for the unpaved road estimates. The Route 651 estimate is cheaper based on rural rustic and us doing the work.

If you need any additional information please let me know.

Thanks

Jerry
