Regional Director

March 10, 2009

Dear Adjacent Property Owner:

This is to inform you that the DEQ has received an application for a Virginia Pollution Abatement (VPA) permit from Recyc Systems, Inc. (Remington, VA.) to apply treated biosolids to approximately 1,090 net acres of farmland owned and/or operated by J.H. Lee & Sons, Inc. (main farm is Flaggy Run Farms at 28531 Flaggy Run Rd. in Courtland). Biosolids are high quality, sanitized wastewater treatment solids (treated sewage sludge) that have nutrient value for crops. The applicant proposes to utilize municipal biosolids on farmland on an infrequent basis (once every 3 years) without a discharge to surface waters. The application rates will be in accordance with the agronomic nutrient needs of the crop and will be in accordance with an approved nutrient management plan. Your name appears as an adjacent property owner, provided to DEQ by County Tax Records on file with the **Commissioner of Revenue/tax assessor** in accordance with § 62.1-44.15:4.D. Attached is a listing of the properties, specific fields and acreages to which this notice applies.

The Department has reviewed the application and has scheduled an informational public Meeting at the Board of Supervisors Meeting Room, Southampton County Office Center, 26022 Administration Center Drive in Courtland on March 30, 2009, from 6:30 p.m. to 8:30 p.m. to discuss the technical issues relating to the proposal. Notice of the meeting will also appear in the **Tidewater News** within the next two weeks inviting the public to attend. The Department will then review all information and may draft a permit for this biosolids management activity. If the Department drafts a permit a notice will appear in the **Tidewater News** announcing our intention to issue the permit and inviting public comment on its content. This public comment period will run for 30 days from the date the notice first appears in the newspaper.

Please feel free to contact me at (757) 518-2106 or e-mail at resmithson@deq.virginia.gov if you have any questions about this notification.

Sincerely,

Robert E. Smithson, Jr.
Environmental Engineer Senior
