

11. MISCELLANEOUS**A. SUMMER YOUTH PROGRAM – FINAL REPORT**

Attached for your reference please find a copy of the summary report for the Summer Youth Program, made possible with funding from the American Recovery and Reinvestment Act (ARRA), more commonly referred to as the Federal Stimulus. We were able to employ two (2) summer workers, Ms. Bianca Britt and Mr. Claude Murphy. The program lasted eight (8) weeks, from June 21 through August 13 – Ms. Britt assisted Ann Darden with custodial maintenance and Mr. Murphy assisted our Public Utilities Department with grounds maintenance. Both employees performed well and both have a greater appreciation for the value of education.

B. WESTERN TIDEWATER FREE CLINIC – ANNUAL REPORT

Attached for your reference please find a copy of the 2009 annual report from the Western Tidewater Free Clinic. The Clinic is located on Meade Parkway in Suffolk. Six percent (6%) of the clinic's patients are from Southampton County. County residents are eligible for free services if they have no health insurance and live at or below 200% of the federal poverty level (\$44,100 for a family of 4). Southampton County has contributed more than \$14,000 to the clinic over the past three (3) years.

C. CASA – QUARTERLY REPORT

Attached for your reference please find a copy of the first quarterly report for CASA, or Court Appointed Special Advocates. The program served 32 children in Western Tidewater in 2009 – a jurisdictional breakdown was not included in the report. Southampton County has contributed more than \$52,000 to CASA over the past three (3) years.

D. 2010 ANNUAL WATER AND WASTEWATER RATE REPORT

Attached for your reference please find a copy of the latest annual water and sewer rate report compiled by Draper Aden Associates, which reflects our most recent fee increases. Our monthly water rate for 5,000 gallons is now roughly 14% above the median (\$29 as compared to \$25.45) and our monthly wastewater rate for 5,000 gallons remained at 22% above the median (\$39 as compared to \$32). Our residential connection fee for water is equivalent to the median connection fee (\$1,000), while our residential connectional fee for wastewater is 64% above the median (\$1,800 as compared to \$1,100). Our residential facility fee for water is 17% higher than the median (\$4,000 as compared to \$3,410) and, for wastewater, is now 39% higher than the median (\$6,000 as compared to \$4,325). Please note that the average system in Virginia had between 10,000 and 11,000 connections – almost 10 times our

number of connections – there are clearly economies of scale in the utility business.

E. STATUS OF FEDERAL DISASTER DESIGNATION

Attached for you information please find copied correspondence from Governor McDonnell transmitting our request for federal disaster designation to U.S. Secretary of Agriculture, Tom Vilsack. At this writing, we are still awaiting a response from Secretary Vilsack. Based on the Governor's loss assessment report, corn in Southampton County is at a 55% loss, cotton is at a 26% loss, grass is at a 40% loss, peanuts are at a 28% loss, soybeans are at a 18% loss and wheat is at a 37% loss.

F. SIGNED REASSESSMENT AGREEMENT

Attached for your reference, please find a copy of the signed agreement for general reassessment services with Wingate Appraisal Service – work is expected to begin later this month.
